

Revision  
**Mammals**  
**Tutorial Quiz**

	Write True or False for each Statement	My Answer	Correct Answer
1	All mammals have similar characteristics that group them together.		
<i>Explanation</i>			
2	Marine mammals are those animals such as whales, polar bears and seals that <b>always</b> live in water		
<i>Explanation</i>			
3	The most important characteristics of marine mammals include, 'breath air into lungs', 'suckle milk to their young', 'have hair' and 'give birth to live young'.		
<i>Explanation</i>			
4	<b>All</b> marine mammals breathe through a blow hole in the top of their head.		
<i>Explanation</i>			
5	Seals, sealions and walruses are 'fin footed' marine mammals.		
<i>Explanation</i>			
6	Whales live in groups called pods.		
<i>Explanation</i>			
7	Dolphins, porpoises and killer whales are all similar because they have teeth, whereas other whales have baleen mouths.		
<i>Explanation</i>			
8	The baleen is a filter type structure made of bristles that filters small creatures such as krill from the water.		
<i>Explanation</i>			
9	Krill are fish the size of a small tuna, and are eaten by whales in large numbers		
<i>Explanation</i>			
10	Killer whales are also called orcas.		
<i>Explanation</i>			

	<b>Write True or False for each Statement</b>	<b>My Answer</b>	<b>Correct Answer</b>
11	Killer whales live and hunt cooperatively and are considered to be highly intelligent		
<i>Explanation</i>			
12	The young of seals and sealions are raised in colonies on land, where they suckle their mothers until they are ready to go to sea.		
<i>Explanation</i>			
13	Seals, sealions and walruses are carnivores eating fish or seaweeds		
<i>Explanation</i>			
14	Sea cows or dugongs have horns and feed on seagrasses		
<i>Explanation</i>			
15	Manatees and dugongs are a group of marine mammals called sirenia		
<i>Explanation</i>			
16	Whales, dolphins and porpoises are called cetacean marine mammals		
<i>Explanation</i>			
17	Whaling was once an important industry around the world but is now outlawed by most countries		
<i>Explanation</i>			
18	Any whale product such as oil, fats for soap or bones can be obtained from other products.		
<i>Explanation</i>			
19	All whales have a 4-chambered heart like all other mammals		
<i>Explanation</i>			
20	Mammals are all endothermic – maintain a constant body temperature.		
<i>Explanation</i>
